

# TRADEPULSE — 60s Pitch + 4 Ps (Cold Business Room)

Zero product context assumed · Product · Price · Place · Promotion · one ask

## Wallet card — the 4 Ps

| P         | TradePulse                                                                                                                                 |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Product   | Review-desk software: invoice + shipping PDFs → one audit-ready case file. Flags mismatches. Refuses fake all-clears. Humans still decide. |
| Price     | Ops budget pays. Supervised pilot first, then SaaS (platform + per case). Charge for faster/cleaner review — not robot approvals.          |
| Place     | Sold into GIFT City IBU trade-ops desks. Delivered as cloud workbench (live AWS Mumbai today).                                             |
| Promotion | No ads. Live demo + mentor/buyer intros + supervised pilot.                                                                                |

## 60-second script (speak this)

Thank you for having us.

I'm [Name]. Quick **four P's** so you know who we are.

**Product:** TradePulse is review-desk software. Trade still runs on invoices and shipping PDFs. We turn that messy pack into **one audit-ready case file** — flag mismatches, refuse fake all-clears when data is missing — and **your officers still decide**.

**Price:** Ops budget pays — first a **supervised pilot**, then **software subscription plus per case**. We charge for faster, cleaner review — not for robot approvals.

**Place:** We sell into **GIFT City IBU trade-ops desks** first, delivered as a **cloud workbench** — live today on AWS Mumbai.

**Promotion:** We don't run ads. We need **one intro** to a trade-ops head, show the live demo, and run a short pilot.

That's TradePulse. Happy to take questions.

## Rapid Q&A

### What's the product?

*Document review desk → one case file with flags and maker-checker handoff. Not Customs. Not auto-approve.*

### Who pays / Price?

*Head of Trade Finance Ops. Pilot, then SaaS + per case. Pay for cleaner files, not AI yes/no.*

### Where / Place?

*GIFT City IBU trade-ops first. Browser workbench on cloud; private deploy later after security review.*

### How do you get customers?

*Intros + live demo + supervised pilot. Relationship sale, not ads.*

### Unit of value?

*A case — one documentary pack reviewed with an examiner handoff pack.*

### What's live vs demo?

*Live path AWS Mumbai. Sample packs labelled demo. Prototype — we say that out loud.*

## 20-second cut

TradePulse: Product = review desk for trade PDFs. Price = pilot then SaaS + per case. Place = GIFT IBU ops.

Promotion = demo + intro. Humans decide. Ask: one trade-ops intro. Thank you.

Detail: docs/reports/TradePulse\_4Ps.md · Decision support only — never "AI approved the deal."
